MEMORANDUM FOR THE RECORD

TO : Comptroller

FROM : Assistant Comptroller

25X1A9A

SUBJECT: [] - Medical Care and Hospitalization

25X1A9A

1. Attended meeting in General Davidson's Office on this subject. Present were: General Davidson and Messrs. Meloon, [] and Dr. Tietjen. Dr. Tietjen advised that the whole family has been ordered back to Washington PCS and it is contemplated that the Agency can pay for such transportation. The Medical Division plans to have the family met in San Francisco and will arrange for temporary hospitalization at that point if necessary and/or provide an attendant to accompany the son across country. It was pointed out that technically under Agency regulations no costs connected with the medical care or hospitalization of the dependent son could be borne by the Government; that if such expense is authorized, such authorization would have to be made by the Director or DD/A. Dr. Tietjen said that he thought he might be able to arrange for emergency hospitalization of the son in San Francisco through the Public Health Service without incurring any direct charge. He advised that application was being made to the National Polio Foundation to defray part of the son's medical expenses. []
